

## Digital safety and risks: issues and opportunities for businesses

Rapporteurs: Mrs Anne-Yvonne Le Dain, Deputy, and Mr Bruno Sido, Senator.

Prevent French businesses from deliberately assenting to the plundering of their data by spreading them openly.

From the three levels of digital technology (real, virtual, data transport), only the real level is generally perceived. Opening the black box of digital technology reveals that **vulnerabilities and threats affect the three levels.**
